

The Mathematics Enthusiast
ISSN 1551-3440
(formerly The Montana Mathematics Enthusiast)

VOL. 8, NO.3, July 2011, pp.401-636

Editor-in-Chief

Bharath Sriraman, The University of Montana

Associate Editors:

Lyn D. English, Queensland University of Technology, Australia

Simon Goodchild, University of Agder, Norway

Brian Greer, Portland State University, USA

Luis Moreno-Armella, Cinvestav-IPN, México

International Editorial Advisory Board

- Mehdi Alaeiyan, *Iran University of Science and Technology, Iran*

The Mathematics Enthusiast is an eclectic internationally circulated peer reviewed journal which focuses on mathematics content, mathematics education research, innovation, interdisciplinary issues and pedagogy. The journal is published by Information Age Publishing and the electronic version is hosted jointly by IAP and the Department of Mathematical Sciences- The University of Montana, and affiliated to the professional association PMENA [Psychology of Mathematics Education- North America].

Articles appearing in the journal address issues related to mathematical thinking, teaching and learning at all levels. The focus includes specific mathematics content and advances in that area accessible to readers, as well as political, social and cultural issues related to mathematics education. Journal articles cover a wide spectrum of topics such as mathematics content (including advanced mathematics), educational studies related to mathematics, and reports of innovative pedagogical practices with the hope of stimulating dialogue between pre-service and practicing teachers, university educators and mathematicians. The journal is interested in research based articles as well as historical, philosophical, political, cross-cultural and systems perspectives on mathematics content, its teaching and learning. The journal also includes a monograph series on special topics of interest to the community of readers. The journal is accessed from 110+ countries and its readers include students of mathematics, future and practicing teachers, mathematicians, cognitive psychologists, critical theorists, mathematics/science educators, historians and philosophers of mathematics and science as well as those who pursue mathematics recreationally. The 40 member editorial board reflects this diversity. The journal exists to create a forum for argumentative and critical positions on mathematics education, and especially welcomes articles which challenge commonly held assumptions about the nature and purpose of mathematics and mathematics education. Reactions or commentaries on previously published articles are welcomed. Manuscripts are to be submitted in electronic format to the editor in APA style. The typical time period from submission to publication is 8-11 months. Please visit the journal website at <http://www.math.umt.edu/TMME/>.

The journal is published tri-annually and is a former affiliate of The Montana Council of Teachers of Mathematics, who have free access to the journal through the UM-Department of Mathematical Sciences.
