#### Prominent guest in mathematics education

Professor Bharath Sriraman from The University of Montana, USA, will visit Umeå University on March 15 to 17.

He will give a seminar at Umeå Mathematics Education Research Centre (UMERC) on March 17, at 1 pm, and a colloquium at the Department of Mathematics and Mathematical Statistics on March 16, at 2 pm. More information about these presentations is given later.

#### Dissertation defence

On November 27, Lili-Ann Kling Sackerud defended her dissertation within the subject pedagogical work, about students opportunities to assume responsibility for their own learning in mathematics.

#### Head of UMEC

**Name:** Johan Lithner

The alarming reports about the poor mathematics skills of Swedish students are pouring in. Johan Lithner's research indicates, however, that the problem is not mainly with the students - it is the instruction.
