M 307, Spring 2015 - Homework 1, Due February 4.

**Reading:** Read the Preface and Chapter 2 of the book. We will come back and do Chapter 1 after we finish Chapter 2. For the moment, don’t worry about Python programs; we will talk about these things next week.

**Homework:** Exercises are sprinkled like fish food throughout the text. Do Exercises 2.1.1, 2.1.2, 2.1.3, 2.3.2. Problems appear at the end of the chapter. This week, from Chapter 2 do Problems 1, 3, 4, 6, 10.

**Portfolio:** Your first portfolio problem draft is due Monday, February 9. Choose either Problem 7, Problem 11, or Problem 12 at the end of Chapter 2.
